## PROFESSIONAL SUMMARY

Highly motivated Full Stack Developer with 2+ years of experience in building scalable web applications using ReactJS, Node.js, and cloud platforms like AWS. Proven leader in technical teams, skilled in designing performant microservices, and dedicated to contributing to developer communities. Passionate about crafting human-centered, data-driven digital experiences and expanding expertise into cybersecurity.

---

## EDUCATION

### Masters Of Science in Cybersecurity

Enrolled : 2025

University of Mumbai & St. Louis University (Joint Degree Program)

### Bachelor of Computer Applications

Graduated : 2025

MMHAP University

---

## SKILLS

- **Programming** : Python, JavaScript, Dart, HTML, CSS
  - **Libraries/Frameworks** : Django REST, NextJS, ExpressJS, Flutter, React JS, NodeJS, HonoJs
  - **Database** : MySQL, PostgreSQL, MongoDB, Redis
  - **Tools & Others**: GIT, Microservices, Docker, Linux, BullMQ, EDA, AWS, Shopify
- 

## PROFESSIONAL EXPERIENCE

Various Clients

### Freelance Full Stack Developer

Apr 2024 - Present

- Engineered and launched cross-platform (Android & iOS) delivery app for Native Milk with live GPS tracking, in-app chat, and image-based delivery proof.
- Designed and implemented a comprehensive warehouse management web app for Native Milk, streamlining order, production, and inventory tracking.
- Developed and optimized e-commerce and static websites for diverse clients, boosting user experience and sales.

### Google Developer Groups Patna

#### Technical Lead - Volunteer

March 2022 - December 2023

- Spearheaded the organization and execution of 5+ successful events (DevFests, workshops, hackathons) attracting over 300 participants, boosting community engagement by 20%.
- 

## PROJECTS

### Native Delivery

Flutter, Android MediasStore API, IOS (Xcode), REST APIs, NextJs, Riverpod

Developed an Android and iOS delivery management app with admin features, offline order marking, and Excel export using MediaStore, significantly enhancing performance and offline functionality. Implemented robust offline functionality, enabling delivery personnel to mark orders complete and sync data upon reconnecting, ensuring seamless operation in low/no connectivity environments. Utilized Riverpod for efficient state management and integrated REST APIs for real-time order tracking and data synchronization, improving business workflow efficiency by 50%.

### EJYHealth Products

Shopify, Google Merchant, Google Analytics, Google Search Console

Developed a full-stack blog platform ([blog.ejyhealth.in](http://blog.ejyhealth.in)) empowering healthcare professionals and patients through content creation. Built an interactive AI chat assistant ([ejyhealth.net](http://ejyhealth.net)) offering instant, reliable health information to a wider audience.
